Table of Contents

Education based Convergent Research

The Relationships between Academic Self-Efficacy, Academic Burnout and Adjustment to Nursing Students’ College Life ................................................................. 1
Myeong-Ja Moon, Seon-Hye Lee

The Mediating Effect of Organizational Self-leadership on the Relationship between Ego resilience and Happiness in Undergraduates ................................................................. 13
Jung-A Lee, Mijin Kim

Impact continuing education program participation on successful aging in the elderly: Focusing on analyzing moderating effect of depression ................................................................. 23
Kim Sa-Rah, Kim Rah Kyung

The Influence of Body Image and Self-Esteem on Career Search Efficacy in Dental Hygiene Students ................................................................. 35
Eun-Suk Jeon, Eun-Mi Noh, Hyo-Jin Ko

A research on the qualitative case related to the school life experiences of the foreign students in Korea -Focused on married Mongolian students in graduate course in Korea- ........................................... 47
Su-jeong Han

Gender Difference in Academic Achievement, Perceived Learning Outcomes, Self-directed Learning Engagements, and Social Interactions among College Students ................................................................. 63
Hyejin Kim, Okboon Kim

A Study on the Development of a Topic-Oriented STEAM Program for Preschoolers ................................................................. 73
Ok-young Park

The Effect Research of Concentration Training and Electroencepharogram used Neuro-feedback for Adolescent ................................................................. 85
Mi-Na Lee, Myung-Eun Lee

A Study on Analysis and Development of Curriculum for Departments of Medical Tourism Based on Industry Needs ................................................................. 93
Se-Hee Lee, Eun-Young Choi

Research trends of bilingual education for children from multicultural families: focused on foreigner parent’s language education

Jia Chen, Hai-Ying Huang

A study on the child education experiences of married female students who left their children in their home countries for study

Park Misuk, Kalanova Dilnoza

Survey of Status and Educational Needs of Radiation Protection among Perioperative Nurses in General Hospitals

Hee Jung Jang

Exploring the National Competency Standard Curriculum of Graduate School Professors

Jin-Hee Kim, Jaewoo Do

An analysis on sustainability and activity factors of learning community in Adult Learners

Kyung-Hee Park, Sang-Hoon Han

Investigation and Development of Teaching Model for Early Childhood Korean Traditional Music Education

Sun-Hee Kim

The Effect of Elementary School Children's Degree of Violence Acceptance, Empathy and Ego-resilience on the Experience of School

Jee-Young Ahn

Youth delinquency in America: A growth curve analysis

Yeok-il Cho, Tammy Nickell

Psychological Growth Environment, Self-concept Clarity and Aggression of Nursing Students

Lee Kyung Hee, Kim Nam Hee

A Study on the Imaginary Companions Shown in Picturebooks: Focusing on picturebooks 'Aldo' and 'Jessica'

Seoyeon Won, Younchul Choi

The Relationship among Self-esteem, Communication Skill, Clinical Competency and Clinical Practice stress in Nursing Students

Seung-Hee Han

Cloud-based E-Learning Integrated Approach

Yvette Gelogo, Hye-jin Kim
Comparative Analysis on Recognition of Pre-Service Teachers on English Education for Younger Learners: Focusing on Pre-service Teachers in Early Childhood Education and English Educationservice Teachers in Early Childhood Education and English Education ........................................... 239
Byung-Man, Kim, Jae-Seok, Yang

A Structural Analysis of Qualitative Factors of Entrepreneurship Education and Entrepreneurial Factors of College Education ........................................................................................................... 253
Chul-Ho Jung, Yong-Seok Seo

Healthcare based Convergent Research

Study on Stress Response in Brain Wave on the Relationship between Job Characteristics and Growth Need Strength ........................................................................................................... 261
Hyung Woo Park, SangWoo Hahm

Study on the Coping Strategy for Stress on Pre-Service Child Educare Teachers ........................................... 269
Sun-Ock Koh, Jin-Oak Koh, Mi-Oak Koh

Relationship among Stress, Binge Eating Behavior, and Symptoms of Food Addiction in Nursing Students ................................................................................................................................... 279
Eun-Joo Lee, Kyoung-Ran An

A Study on Vocalization Characteristics of The Cat ........................................................................................................... 289
Eun-Young Yi, Uk-Jin Song, Myung-Jin Bae

Factors Associated with Gastroendoscopy Screening Practice in Adults Over the Age of 20 years old ................................................................................................................................... 299
Seong-Ran Lee

Influence of Children’s Interest in Appearance and Beauty Attitude on Beauty Behavior ........................................... 307
Kee-Jung Barng, Hye-Kyong Shin

Relationships between children' Negative Emotion, Depression and Aggression ........................................... 317
Young-Chun, Kim

Welfare based Convergent Research

A study for experience of mother's who send their young children to child care center at the beginning of semester ........................................................................................................... 329
Kyung-Chul Kim, Jin-young Go, Woo-soo Choi

Factors Influencing Depression among Elderly: Analysis of 2014 National Health and Nutrition Examination Survey ........................................................................................................... 337
A Study on the Antecedents of Social Work Students' Career Decision Efficacy: Focusing on the Effects of Career Barriers and Satisfaction from Major ................................................................. 345

So-Yun Choi

A study on the Effects of Compassion Satisfaction-Compassion Fatigue(CS-CF) of Child and Adolescent’ Workers .................................................................................................................. 355

Ji-Sun Park, Ji-Eun Chun

A Study of Method to Improve Online Shopping Mall Review Grammatical Errors for Increase Opinion Mining Accuracy ........................................................................................................... 365

Se-Jeong Park, Jae-Seung Hwang, Jong-Bae Kim

Business based Convergent Research

Design of ICT based Protected Horticulture for Recovering Natural Disaster ........................................ 373

Meong-Hun Lee, Hyun Yoe

Effects airline employee of communication style on customer emotion, customer trust and behavioral intention ................................................................................................................................. 383

DongYeol Jung, Saebum Kim, ZhengHua Yang

An Empirical Study on the Antecedents of Organizational Citizenship Behaviors ............................... 393

Lim mong tak

Exploring impacts of multi-dimensions comprising online interactivity and perceived risk on consumers’ attitude and behavioral intention -Focusing on sharing economy business, Airbnb- ....................................................... 403

Sujin Yang

Business Model for a Service Oriented Company .................................................................................. 413

Seonmin Kim

Culture Content based Convergent Research

A Study of Married Immigrant Women's Career Goals and the Meaning .................................................. 425

Hyekyeong Nam, MiJung Lee

A study of Progressive Hair Color Design - Focus on the Mondrian's Artworks - ................................. 433

Jin-a Son, Jeong-hyun Lee

research on comparison of auditory sound depending on resentful degree in Arirang and popular song ................................................................................................................................. 441

Sang-Bum Park, Myung-Ok You, Myung-Jin Bae
History based Convergent Research

The Reconstruction of Life Story of Koryo-saram Min Tatyana .............................................. 449
  Heejin Yun, Youngsoon Kim, Aigerim Aigozhayeva, Aigul Bekboeva
South Korea’s responses of the environmental change in Northeast Asian strategy .................... 457
  Jang woo Lee

Natural Environment based Convergent Research

Experimental Study on Bio-signal Characteristics Behaviors of various Plants using T-type
  Thermocouple ......................................................................................................................... 467
  Ji-Hyung Kim, Sang-Mi Park, Jeongbae Kim
A study on design strategies of zoos with focus on Shenyang Zoo ........................................... 477
  Hoon Park

Information Technology based Convergent Research

A Study on the Automatic Construction of Ontology ................................................................. 489
  Yoondeok Kim, Jong-bae Kim
Proposing a Service based on a Social Robotic Figure that Supports Interaction Between Fans and
  K-pop Stars ............................................................................................................................. 499
  Bienil Jeon, Jae Wan Park
Analyzing the e-Service Quality of Chinese OTA(Online Travel Agent) by IPA
  (Importance-performance Analysis) ....................................................................................... 509
  Dan-lei Tan, Youn Sung Kim, Seo-yeong Kim
Serious 3D Aerospace Game Contents using NUI Interface MYO ........................................... 519
  GangRae Park, BeomSu Kim, Seachul Oh, SuMin Oh Seongah Chin
Content-Based Fatigue Evaluation Model for The 3D Stereoscopic Video .................................. 529
  Gil-Ja So, Sang-Hyun Kim
Understand of Artificial Intelligence : Approach by Cognitive Science ...................................... 539
  Jae-Hwan Park
Requirements Analysis of Manufacturing Industry for the Development of Support System based on
  Cognitive and Affective Information ...................................................................................... 549
  Jung Huh, Hoon Sik Yoo, Da Young Ju
App UI Design research for improving the usability of the Silver Generation ............................. 565
  Won Whoi Huh, Jung Gil Cho
Electronics based Convergent Research
Performance Comparison of Microstrip Band-Pass Filters for Different Dielectric Materials .......... 573
Vivek Singh Kushwah, Geetam S. Tomar, Hye-jin Kim

Design and Analysis on the Parallel MPPT controller in Solar Car Power System Design for Maximum Energy Efficiency ........................................................................................................ 585
Jae-Min Sim, IL-Song Kim

Safety and Security based Convergent Research
Reverse 112 System Using Geo-Fencing ......................................................................................... 593
Sung Yong Lee, Hyun ho Kim

Architecture and Civil Engineering based Convergent Research
A study on the Project Planning Method of Areas near St.Pancars Station & King’s Cross Station in London ........................................................................................................................................ 603
Ye-Kyeong Shin

Forest Vegetation Classification and Development of Management System with Satellite Data and GIS ........................................................................................................................................ 613
Sung-Min Cho
