## IT Convergence -based Research

How to Promote Software Architects in Korea .................................................. 1

HyoJung Kim, JaeKul Lee, SeungHoon Jung, Hyeon-Kyung Lee, JongBae Kim

Research of Specific Domestic De-identification Technique for Protection of Personal Health Medical Information in Review & Analysis of Overseas and Domestic De-Identification Technique .................................................................................. 9

Pilwoo Lee, Hanjin In, Cheoljung Kim, Kwangsoo Yeo, Kyoungtaek Song, Khigeun Yu, Jongil Baek, Sooneok Kim

Judgement of Violation of the Protection Duty of Internet Service Provider ............. 17

Juyoung Kang, Hyunji Kim, Hwansoo Lee

Case Analysis of Usability test : With a Focus on KNOW .......................................... 27

Hye-won Kim, Young-Min Lee

Data Mining for Spam Email Classification ............................................................... 37

Gitae Kim

## Healthcare-based Research

Subjectivity on the Adaptation of University Students to Dormitory Lives : An Application of Q-methodology* ................................................................. 49

Jeong Ah Yoon

Experience the Suffering of Stroke-Patients 'Applied to Parse’s Human Becoming Research Methodology .............................................................................. 61

Jong-Sik Jang, Seong-Youl Choi

Factors affecting the behavior treating the elderly ..................................................... 79

Hun-Ha Cho, Nam-Hee Kim

Subjectivity for hospital accreditation of hospital workers ........................................ 89

Younhee Roh, Sunyoung Jang, MeeSuk Wang

Study on the Confidence-Parameter Estimation through Speech Signal .................... 101

Hyung-Woo Park, Sang-Hwi Jee and Myung-Jin Bae
A study on Kim Jung-un's Obesity through Speech Signal Correlation Analysis .......................... 109
Seong-Geon Bae, Byung-Min Lim, Myung-Jin Bae

Correlations of Ego Resilience and Self Efficacy in Pre-Clinical Practice of Nursing Students
........................................................................................................................................... 117
Seung-Hee Han

Computer Program and Development of Critical Paths, Application Effect for Registration of
Patients Suffering from an Adverse Reaction to Contrast Medium for Computed
Tomography .................................................................................................................................. 131
Kyung-A Park, Kyung-Hee Chung

Efficacy of implementation of psychiatric emergency care service for suicide attempt patients at
emergency department .............................................................................................................. 143
Seoyoung Ko, Sungkun Lee, Sungwook Song

Education-based Research

Comparison of University Students' Creativity by Grade: Focusing on Korea and China ........ 151
Fang Xu Zhou, Chae-Bogk Kim

Analysis of Subject Matter Related Student Career Before and After the Implement of
Free-Semester System in Middle Schools ............................................................................. 159
Mi young Kim, Jin suk Kim, Bong sun Lee

A Historical and Philosophical Study on the Nature of Curriculum Studies .................. 169
Keunjae Ahn, Daeyoung Kim

Use of Language Function in the Circle Time ................................................................. 181
YouMe Han

Development of teaching commitment scale of child education institutions .................. 191
Seo-yeon, Gu, Do-uyeong, Yoo, Kyu-soo, Kim

Effect of Positive and Negative Affect between Self-Esteem and Interpersonal Relationship in
Nursing Students .................................................................................................................... 199
Jung-Ho Kim, Ki-Noh Kang, Soo-Yang Na

A study on the Adaption Process of Experienced Male Nurses ........................................ 209
HeeJang Yun

A Study On The Exploring Alternatives In After-School Program According To The Application
Of Contract Law ..................................................................................................................... 219
Yeong-Mo Jeong

An Empirical Study on the Building of Learning Organizations in Small and Medium
Enterprises .............................................................................................................................. 229
Lim mong tak
Exploring Ways to Improve Lifelong Education Profession for Adults with Disabilities ............ 239

Jeong-Suk Kwon, Yeo-Joo Jung

A study on the improvement strategies of the saturday after school program implementation—focused on community educational capabilities— ................................................................. 249

Soo-Dong Kim

Effects of the self-esteem program on underachieving children's reading and writing abilities .............................................................................................................................................. 259

Soon-Gil Park, Jung-Hye Lee

Influence of Art Education through Formative Activities on the Development of Children’s Drawing Representation Ability ........................................................................................................ 269

Jeong-Moo Hurh, Jin-Oak Koh, Mi-Oak Koh

The Effect of Tutor’s Expertise and Teaching Experience on Learners' Satisfaction in the Problem-Based Learning. ........................................................................................................ 279

Soo-Jin Kim, Hee-Kyeung Kang

Effects of the Preferences for major and Expectations for the Teaching Profession on the Learning Efficacy of Undergraduate Students ........................................................................ 291

Ho-Soup Lee, Suk-Yeol Lee

Relationship Between Emotional Intelligence and Academic Self-Concept Based on Multiple Intelligences Level of Elementary Students ................................................................. 301

E-Rang Kwak, Kyung-Sung Kim, Soo-Young Lee

**Welfare-based Research**

A Study on Effect Analysis of Income on Information Culture Index ........................................ 313

Woo-Chun Jun

The Value of Peace and the Acts of Women of the Old Testament from the Migrational Perspective ........................................................................................................................................... 321

Eunyoung Choi

Psychometric Properties of the Error Management Culture in Social Service Agency ............ 329

Sang-Chul Lee

Career Activities of Koryuin Young Adult in Korea ........................................................................ 339

Nam Hyeckyeong, Mijung Lee

**Business based research**

How do Communication Factors and Consumers’ Learning Style Influence Consumers’ Decision-Making Style? ...................................................................................................................... 349
Method for Cultivating the Technology Transfer Based on Extracting the Technology Transfer Broker—Case Study of Global MVP ................................................................. 361

Ha Sung Chun, Sang Duck Kim, Jong-yi Hong

Control system of the street-level bureaucrats in science & technology public administration based on principal–agent theory ................................................................. 371

Sang-Kil Lee

Culture Content-based Research

Social Contribution Model through 2016 Rio Summer Olympic Sponsorship of Cisco .......... 379

Jaehak Byun, Sangphil Kim, Changbyung Park, Jaekul Lee, Yongtae Shin, Jong-Bae Kim

A Study on the Method for Efficient Development of Digital Humanities System ............. 389

Ji-Hoon Kang, Dong-Yul Lee, Sang-Ho Moon

Sports Instructors’ Globalization Method Research: Focused on Ski Instructors’ Tasks Analysis .................................................................................................................. 399

Ho Yoo, Ji-Eun Kim

History–based research

A Study on the Primary Cause of the Defeat of Old Jeseon in the Warfare between Old Jeseon and Yan ........................................................................................................ 409

Seong-Jai Lee

A Study on the Revitalization of Urban Regeneration through Culture Strategy .............. 419

Hag-Rae Lee, Myung-Soo Koo, Jin-Sung Bae

Architecture and Civil Engineering-based Research

A Study on the Characteristics of Urban Re-Organization regarding as an Establishment of New High-Speed Railway Stations focused on JR Kyushu’s Main Stations ................. 427

Ye-kyeong Shin, Hye-jin Jung

The Study of Design Strategy of Large-scale Development Project centering on Industrial Complex .................................................................................................................. 439

Hoon Park

A Characteristics analysis through Comparative Study on form and type of the elementary school courtyard in cases of domestic and foreign country ........................................ 451

Lee-Yong Sung, Hee-Jin Yun
