# Table of Contents

**Business based Convergent Research**

A Study on the Syntagma & Paradigm by Repetition, Variation and Contrast in Ads .................................................. 1

Choi Seong-hoon

Services in International Trade of Japan: Factors Influence on the Share ................................................................. 13

Kyung Mi Bae, Kyoung-Hee Park, Youn Sung Kim

An Empirical Study on the Lead-Lag Relationship between the KOSPI200 Index and the Real Trade Price Index of the Apartment ........................................................................................................................................ 21

Sang-Goo Lee

A Study on the Effect of Financial Company Intention to Use and Business Performance in Big Data ........................................................................................................................................................................ 31

Sun-Kyu Kim, Myong-Kyu Kim

Study on the appropriateness of long term repair plan of apartment house ................................................................. 43

won kook kim

The Effects of Superstores Fashion Accessories Quality on Customer Behavior ............................................................... 53

Jong-Deok Park, Soo-yong Park, Dong-Hyung Lee

The Effect of Store Characteristics and Employee's Characteristics on Consumer’s Trust and Attitude in Beauty Shop ................................................................................................................................................... 61

Yun Kim

A Study on the Advancement Plan of Latin America through Ecuador's Electronic Customs Clearance System ........................................................................................................................................................................ 71

Yeong-Sik Yoo, Jon-Mo Yoon

An Analysis on Management Performance of Nonghyup Hanaro Mart Using DEA - Focused on Chungcheongnamdo Gongju, Seosan, Asan and Cheonan - .......................................................................................................................... 83

Gyonam Kim,Jaehwan Kim, Heecheol Shim
The Influences of Social Network and Website Characteristics on Trust to Enhance Purchase Intention

Haengnam Sung, Jae-IK Shin

An Empirical Study on Factors Affecting Usage Attitude and Intention to Revisit of Warehouse Type Discount Store

So-Eun Park, Inhee Seo, Jihyung Lee, Jeongil Choi

Developing a Method for Predicting Efficient Local Education Finance

Kyungbo Park, Jong-Yi Hong

A Study on the Correlation between North Korean Nuclear Experiment Issue and Industry Stock

Jin Young Park, Jong-Bae Kim

The effect of similarity, time of release, and message type on the evaluation of extended brand in the era of consumption polarization

Junsik Kwak

Study of Female Consumers in 30s and 40s’ Ethical Consumption Behavior

Ju-Youn Jung, Jai-Min Han

Culture Content based Convergent Research

A Study on the Improvement Plan of Jeon-ju City Apartment External wall painting by Analysis of Color and Preference

Seong-In Hong, Soo-Young Lim

Five Artistic Values of the Apple Company: Focusing on Apple’s Logo

Soon-Hak Hwang, Se-hak Chun

Implications of the severance of cohesive networks on readability in the Korean translation of Your Best Life Now

Gyung Hee Choi

Comparison Study on the Simultaneity in the Maison Garche and the Maison Jaoul of Le Corbusier

Jae-Hee. Cho
Difference in Viewpoint upon Female between “The Reconciliation” and its Film Version <The Black Hair> .......................................................... 207
Hyub Lee

A Study on Utilization of Facial Recognition-based Emotion Measurement Technology for Quantifying Game Experience .................................................. 215
Jae Beom Kim, Jeong Hong Kyu, Chang Hoon Park

Impacts of multidimensional interactivity and security on loyalty toward SNS- ........................................ 225
Su Jin, Yang, Kyoung Ran, Kim

Freedom of Image in Cyberspace ................................................................. 233
Ah-lim Lee, Chan Lim

Information Technology based Convergent Research

A study on the Method of Judging before and after Drinking by using Voice Signal in VTS Communication Environment .................................................. 241
Won-Hee Lee, Gyu-Hyun Lee, Seong-Geon Bae, Myung-Jin Bae

Study on the relieve of Low Frequency Noise of Wind Generators ........................................ 251
Sang-Bum Park, Won-Hee Lee, Myung-Jin Bae

Sensor Data Collecting and Processing System ........................................... 259
Dong-beom Ko, Tae-young Kim, Jeong-Joon Kim, Jeong-min Park

Implement interface design to improve mobile app usability -Focusing on the silver generation- ······· 271
Won Whoi Huh

Development of the Fruit Harvest Season Prediction System Architecture Applying Undestructive Sugar Sensor And Color Sensor ........................................ 279
Jung Won Oh, Hangkon Kim

A Study on the Development of a Technology to Improve Anger Coping Strategies Using Location-based Service ........................................... 289
Pung-Sam Lee, Yun-Gil Lee

Study on the Transforming-Body Movement Pattern in <Sailor Moon>: Focusing on the Effort-Shape Analysis of Movement ........................................... 297
Hwa-Jung Yoo, Shan Lim
Fingerprint Recognition Function Applied Secure Keyboard for Smartphones ........................................... 307
Dongmin Choi

Korean Hedge Detection Using Word Usage Information and Neural Networks ................................. 317
Mei-Ying Ren, Sin-jae Kang

Coroutine based Algorithms for reducing Memory overhead in Virtual Reality ............................... 327
Ju Kyung Yoo, Jong-Bae Kim

Efficient real-time framework using CAN protocol ............................................................................. 337
Seung-Jae Oh

Architecture and Civil Engineering based Convergent Research

A Study on the Layout Characteristics of the Hanoi Citadel.............................................................. 345
Min-hye Hwang, Ye-kyeong Shin, Hye-jin Jung

Machine based Convergent Research

Field Test to Improve Performance of R1 Synchronous Motor for Excitation System .................... 357
Hoon-Gi Lee, Hie-Sik Kim

Healthcare based Convergent Research

The Effect of Physical Activity Programs on Vocational Adaptation Abilities with People with Mental Disabilities- .................................................................................................................. 367
Jung-Ha Hwang, Seung-Tae Kim, Jong-Sik Jang, Sun-Min Lee
Clinical Practice Exercises at One New Nursing University ............................................................. 377
Younsook Ju, MuyeongSeak Yang

The effect of supportive education on quality of life in patients after percutaneous coronary intervention ........................................................................................................................................ 385
Jun-Hee Ahn, Eun-Hee Jo

The Effect of the Social Re-adjustment Program for Stroke Survivors ............................................. 399
Park Seon-Il

Factors Influencing on Cancer Progression among Patients with Endometrial Cancer in Chungcheong Area .................................................................................................................................. 409
Seong-Ran Lee
A Study on the Knowledge and Practice Will Toward Organ Donation Among University Students .......................................................... 417
Sun-Ok Lee

Analysis of users’ needs for developing mobile health based prevention and intervention programs for the metabolic syndrome in college students ......................................................... 429
MinAh Kang, Soo-Kyoung Lee

Effect of Psychological Factors on Safe Driving Behavior in Elderly ........................................ 443
Yoo-Im Choi, Hee-Soon Woo

Exercise frequency and the difference of Dopamine Neuron number and Movement ability of Parkinson’s Disease Model .................................................. 453
Jae-Sung Park, Min-Ki Lee

Welfare based Convergent Research

Personalized Book Recommendation System ........................................................................ 461
Jeong-Joon Kim Ji-Woong Park, Young-Gon Kim

Study on the Influence Factors of User Satisfaction of Senior Citizen Centers ...................... 473
Gwang-sun ko, Young-chul Lee

The Effect of Reminiscence Activities on Depression of the Residential Elderly with Dementia ...................................................... 483
Jeong-Mi Hong, Byeongil Rho

The Study on the Perception of the Relationship between Ego-strength and Happiness ................ 493
Mi-Na Lee, Sang-Hee Park

Analysis of Effectiveness of Youth Employment Policy through Policy Monitoring Process .......... 501
Dong-Yul Jung, Cheol-Woo Park, Young-Min Lee

The Minority's struggle for recognition in the life history of Korean-Chinese female leaders ........ 508
Huang Haiying, Kim Youngsoon

A Qualitative Case Study on the Child-rearing Experiences of a Couple who was Raised in a Child Care Institution ........................................................................ 519
Shinae, Park

Incentive Policies Elder’s Long-term Care Organizati .......................................................... 529
MINJUNG kIM
A Study on the Ideology of State Affairs and the Science-Technology Leadership - Focusing on Democratic Administrations ................................................................. 549
Yongkil Lee, Kyunghee Kang

The Effects of Compulsory Organizational Citizenship Behavior on Job Burnout: The Mediating Effect of Job Stress .................................................................................. 559
Xiu Jin, Fusheng Zheng, SangWoo Hahm

A Study on the Impact of Organizational Justice on Organizational Citizenship Behavior .............. 569
Lim mong tak

Education based Convergent Research

Quality of Life and Its Related Factors Between Medical Students and Non Medical Students ...... 577
Beom Seok Park, Kwi Hwa Park

Prototyping for Developing a Language Learning Content System Supporting Real-time Communication Based on Immersive VR ................................................................. 589
Seungyeon Choi, Jae Wan Park

The Effects of Team-Based Learning on Problem Solving Ability, Communication Ability, and Self-directed Learning .......................................................................................... 599
Heesook Park, Youngjin Kim, Dong Sook, Choi

Reinforcement of major capacity in hardware engineering through computing thinking and programming education .......................................................................................... 613
Seung-Woo Lee

A Study on the parents’ Perception and Needs of Early Childhood Integrated Arts Education Program for Young Children .................................................................................. 623
Sun-Min Park

A Study on the Relationship between Certification Preference and Acquisition of Competition ...... 639
Jeong-Ho Lee, Yun-Jin Jo

The Relationship between Safety Consciousness and Safety Practice Behavior of Law student ...... 655
Insook Lee

A Study of Health Education Practice in Health Experience Center through Cooperative learning ........................................................................................................................ 669
Soo Ok You
The Effects of Debriefing Studies using Discussion-Oriented Peer Feedback in the Fundamentals of Nursing Practice ................................................................. 683  
Ji Won Oak

A Study on kindergarten principals' leadership Perceived by preschool teachers : Focused on Metaphor Analysis ........................................................................................................ 693  
Jinhyeong Noh, Heeseon Koh

A Case Study on Building Curriculum for Strengthening Foreign Student Management Capability of Dongguk University, Gyeongju ................................................................. 709  
Bon Seog Gu

A Study on the Improvement of College English Liberal Education Through the Examination of Present Status ........................................................................................................ 719  
Ji-Eun Kim

The Perceptions of L2 Learners about Writing Practices Representing Authenticity, Communication, and Self-orientation ........................................................................................................ 727  
Ho-Jung Yu

A Study on the Participation Experience, Needs and Satisfaction of Lifelong Education of the Elderly in Chungnam Province ........................................................................................................ 735  
Hyun-Jung Kang, Yun-Jeong Kim

A study of individual, academic and employment prepared factors influencing get permanent position in the field of information technology and telecommunications ................................................. 747  
Young-Ki, Kim, Young-Ju, Hur

Utilization of small-scale school facilities and incentives ........................................................................................................ 757  
Min-Hee Kim, Se-Hee Oh

Study on Possibilities of Dialectical Approach in the Problem of Theory and Practice ............... 765  
Ho-Jae Jeon

A Developmental Study on Investigation Teaching Materials Based Syllabus for Students with Severe or Multiple Disabilities ........................................................................................................ 775  
Okin Lee

A Research on User Education of Hospital Information System: Using Content analysis ............ 785  
Eun ja Kim
A Consideration of Several Contexts related to Disabilities and Special Education ......................... 795
Jong-Gu Kang

A Study on the Effectiveness of Mandala Program for Emotional Stabilization of Crisis Adolescents ....................................................................................................................... 803
Hyunl-Ju Jeon

A study on the evaluation area of academic achievement in special education basic curriculum based on importance and performance analysis .......................................................... 815
Seoyoung Shin, Changun Park

An Analysis of Domestic Research Trends in Arts based STEAM Education ........................................ 825
Kyoung Jin Lee, Sang su Lee

Analysis of secondary curriculum and textbooks for cultural diversity education in China .............. 833
Juanjuan Zang, Jiyeun Jeong

Effects of English Phonics Instructional Types on the Use of Analogy Strategy in Word Reading .......................................................................................................................... 841
Minsung Kim, Je-Young Lee, Jeong-ryeol Kim

Usage of English Articles in Traditional Grammar .............................................................................. 853
In-Young Lee, Mun-Koo Kang

Relationship between Sense of Coherence and Self-leadership of College Student ......................... 863
Su-Jung Ka, Suk-Yeol Lee

Development of Humanity Education Model in Digital Age ................................................................. 875
Sook-Jeong Lee, Hyeyoung Kim

A Study on Implications for Instruction Consulting of Korea through Innovative Teaching Methods of Lesson Study .................................................................................................. 891
Soo-Dong Kim, Kum-Taek Seo

Designing a Creative School Curriculum through Backward Design .................................................... 901
Hyeon-suk Kang

Effects of Sexual consciousness, Sexual attitude, Sexual behavior on Life protection consciousness and Bioethics consciousness of High school male students ........................................... 911
Mi-Young Moon, Hyo-Suk Song, Ae-Hwa Jaung
The Effect of Multicultural Nursing Education on Cultural Competency, Empathy and Educational Needs According to Team-based Learning of Nursing Students .............................................. 925

Kyung Sook Kang, Myung-Sook Park

A study of Academia-industrial cooperation’s Instructional method: focusing on the case of college of engineering ........................................................................................................ 935

Soon-Hee Han

The Contemporary Significance of Community-based Art Education ............................................. 943

Shan Lim
