Table of Contents

Education based Convergent Research

Influence of nursing professionalism and consciousness of biomedical ethics on satisfaction in major of nursing student .................................................................................................. 1
Kim Tae Kyung, Bak Yeon Gyung

The Effects of Application on Self-efficacy, Interpersonal Relationship Ability by Empowerment Program for Nursing Students of College ................................................................. 15
Na young Choi

An Analysis of Current Situation and Direction of Normalization Policy of Teachers’ Task of the Metropolitan and Provincial Office of Education ................................................................. 23
Sang-Chul Lee

Won Woo Shin

Benefits of Professional Learning Community of Same Grade-level Teachers That Were Observed at an Innovative Elementary School ............................................................................. 43
Youngjoo Kim

Ensemble Design of Machine Learning Techniques: Experimental Verification by Prediction of Drifter Trajectory .................................................................................................................. 57
Chan-Jae Lee, Yong-Hyuk Kim

The Effect of a Poem Making Activity using Two-Line Writing Creative Technique on Improving Creative Ability and Creative Personality of Young Children ........................................ 69
Sanghee Koh, Kyunghwa Lee, Changyun Kim

Affecting University Students' Smartphone Addiction ........................................................................ 79
Ho-Bin Ko

A Study on the Future Tasks and Contents of the Establishment of New Educational Governance ................................................................. 93
Dal-Hyo Kim, Sang-Chul Lee

Mediating Effects of Self-Efficacy on the Relationship Between IT Convergence Education and Entrepreneurial Intention of Re-Employment Trainees ........................................................................ 103
Seong-Soo Han, Jung-Joong Kim

The Effect of Social Support of Various Levels on School Adjustment of Adolescents in Institutional Care ............................................................................................................................ 115
Byeongil Rho, Ho Seok Lew

Analysis of Academic probation experience through focus group interview ........................................................................................................ 127
Jong-Won Shin

Making a 3D Geography Teaching Aid and Developing an Augmented Reality App through IT Fusion ................................................................................................................................. 151
Chungyun Lim, Myeongjin Kim, Chalmin Shin, Seong Baeg Kim, Taeho Kim

Instructional Design for Convergence of Art and Mathematics ...................................................................................... 161
Soo-Cheol Kim, Bo-Min Jeong

Application and Effect of Group Art Therapy for Dormitory University Students -Focused on Adjustment to University Life and Life Satisfaction- ........................................................................ 173
Young-Chul Han, Min-ji Kim, Yun-In Nam, So-Won Oh, Seo-In Ha

Analysis of teachers’ guidebooks of Nuri curriculum for 5 year old child based on distribution by areas of group-activities ........................................................................................................ 183
Mi Young Chae

The Relationship Between Factors Affecting Pre-Service Teachers’ Cooperative Self-Efficacy: Focused on playfulness, emotional intelligence, and co-regulation ....................................................................... 191
Young Joo Lee, Hyo Jung Gil

Development of Survey to Inquire Learners’ Awareness of Language Competence Based on CEFR Basic User Level ........................................................................................................ 199
Ji-Hye Jeon, Je-Young Lee, Jeong-ryeol Kim
Architecture and Civil Engineering based Convergent Research

A Study on the Ways to Improve Cultural Impact Assessment Indexes in Urban Regeneration Projects ................................................................. 451
   In-Seo Kim, Ju-Mong Na

Analysis of Coordinate Change about Domestic CORS by Earthquake ............................................... 467
   Min-Gyu Kim, Joen-Kyu Park

Business based Convergent Research

An EOQ Model with Ordering Cost inclusive of a Freight Cost under Condition of Permissible Delay in Payments ................................................................................. 447
   Seung-Whan Shin

The Effects of The Social Enterprise workers’ Social Support and Self-efficacy on their Job Satisfaction ................................................................. 489
   Jin-Ho Jeon

“Application and Selection Status of National Research Fund of Korea(NRF)’s Interdisciplinary Convergent Research Project and Implication for Convergence Researcher” ................................................................. 499
   Eun-jong Kim, Seung-yon Lee

New media Advertisement, Makes the Consumers into Producers of Advertisement ................................................. 511
   Hae-won Kim, Dae-ryong Seo, Eun-kyung Kim

A Study on the policy direction for using a national standards in a product conformity assessment ............................................. 521
   Youngha Lee, JinHan Bae, Junsoo, Lee, Haegun, Song

Analyzing insurance image using text network analysis ................................................................. 531
   Kyungbo Park, Haeree Ko, Jong-Yi Hong

A Study on the Herd Behavior of Female Consumers in Korea ............................................................................. 543
   Yun-Sun, Lee

The Effects of Positive Psychology Capital on Job Stress and Organizational Commitment: Mediating Effect of Happiness ............................................................................. 553
   Ihye-Yeon Kim, Seung-Kyu Nam

Machine based Convergent Research

Efficient Transformer Dissolved Gas Analysis and Classification Method .................................................. 563
   Yoon-Jeong Cho, Jae-Young Kim, Jong-Myon Kim

Acoustic Emission based early fault detection and diagnosis method for pipeline ..................................... 571
   Jinyoung Kim, Inhye Jeong, Jongmyon Kim

A Study on Durability and Strength Properties of Compact Tension Specimen by Material through Simulation Analysis. ............................................................................. 579
   Jung-Ho Lee, Jae-Ung Cho

Fracture Study due to Various Core at Compact Tension Specimen Made of Carbon Fiber Reinforced Plastic ............................................................................. 589
   Jae-Won Kim, Jae-Ung Cho

Culture Content based Convergent Research

New HumanImage as Authors Symbol - Characters in German Literature ..................................................... 597
   Yongsuk Chae

   Tae-Kyung Um, Da-som Jeong

A Application Plan of Tourism Resources Using Tourism Development Policy and Tourism Strategy in Tahiti ............................................................................. 621
   Rock-In Choi

Re-reading Jason Compson through Humor Interventions ............................................................................. 631
   Dong Lee Kuu

An Analysis of Cultural Policy Validity of Establishment of Information Bank for Popular Culture artists ............................................................................. 643
   Kyung-Ho Lee

On the Conservative Tendency Shown in the Korean and American Presidential Election in 2016/17 ............................................................................. 653
   Lee, Geonghan
Healthcare based Convergent Research

The Effects of Work-Family Conflicts on Job Burnout due to Cultural Differences of Foreign Workers ................................................................. 661
Fusheng Zheng, Sang-Woo Hahm
Comparative Analysis of TV Genre Favorability Based on audience size and gender .................. 671
Seong-Su Kim, Chul-Ho Jung

Welfare based Convergent Research

Mi-sun Lee
A Study on the Influence on the Quality of life of industrial accident worker .......................... 813
Young-Chun Kim
A study on the formation of local affection and quality of life .............................................. 823
Ki-Hyun Kim, Young-Chun Kim

Information Technology based Convergent Research

Study about Contents of Local Information Digital Archives of Public Libraries in Japan ........... 837
June Cho
Augmented Reality and Art .................................................................................. 847
Ji-Hye Lee
Utilizing SNS data based on Opinion Mining using Big Data .............................................. 859
Mysung-gyun Lee, Hyo-sang Ji, Jeong-joon Kim, Jeong-Min Park
Improving Twitter Search Function Using Twitter API ........................................... 879
Yong-Wook Nam, Yong-Hyuk Kim
Analysis of Acoustic Quality of Carbon Filament Body Electronic Hageum ......................... 887
Hyung Woo Park, Myung-Jin Bae
A Public Opinion Polling Application with Robust Verification Based on the Ethereum Blockchain

Jae-Hwan Jin, Hyun-Min Eom, Ju-Eun Sun, Myung-Joon Lee

Chatbot Dialogue System for Academic Affairs using Natural Language Processing and Open Source Software

Jin-Hyun Kim, Seong-Weak Jeong, Sin-Jae Kang

Visualizing Educational Material using a Big Data Analytical Tool R Language

Yoon Su Kang, Min Su Kim, Chung Hwan Hong, Seong Baejw Kim, Sangcheol Kwon

HUD Interface and VR content interaction: VR+HUD

Keonhee Park, Seongah Chin

Environment-adaptive User Authentication Method for Smartphones

Dongmin Choi

Obstacle Avoidance of Unmanned Surface Vehicle based on 3D Lidar for VFH Algorithm

Ihn-Sik Woon, Soon-Geul Lee, Jae-Kwan Ryu

Failure Knowledge Extraction Framework from Failure Reports in Large Industries

Dohyeong Kim, Byeong Ho Kang, Sangyoung Lee

A Study on the Usage of Measured Data for Development of Realistic Snow Sports Simulator

Jun-Hyung Park, Jae-Hong Yoon, Eun-Sook Kim
